Experience

Ragura
Socia Media Strategist

Synchron Platform Internatonal
Senior Application Programmer
March 2017 - Present (4 years 3 months)
Nigeria, Bayelsa state

handling of software development projects. handled an automobile diagnostic
simulation software project. This software was developed by me and my team
from start to finish for a Ph.D. student in university of Nigeria. I also took part
in the development of an in-house Information Management system software
for Tarfis Foods limited as a senior programmer in both the development and
maintenance phase of the project and also develop their online ecommerce
web application for sales of dry, fresh and fish oil. I managed a team of 5
programmers and am responsible for quality code and deliverables from the
team.
